### **The objectives of the College are:**

1. To generate continuous efforts to enhance the infrastructural facilities for the betterment of the institution.
2. To fortify the teaching infrastructure and directing efforts towards modernising and upgrading classrooms.
3. To upgrade minimum 60% of the total class rooms into smart classrooms and bringing in the provision of essential equipment and instruments for laboratories.
4. To enhance the student support mechanism through remedial teaching programs.
5. To establish an inclusive and equitable environment for the entire student community.
6. To pursue the establishment of new positions for both teaching and non-teaching staff. While this process is predominantly contingent upon the Department of Higher Education, the institution remains committed to bolstering these efforts.
7. To introduce postgraduate courses for the benefit of the local community.
8. To implement faculty development programmes for the upliftment of the faculties.

- 9. To focus on offering additional short-term courses to enhance employability and skill development. These courses aim to equip students with the necessary skills to support their entrepreneurial endeavours.**
- 10. To construct an auditorium and install lift facility.**
- 11. To guarantee the continuation of efforts to foster a green ethos.**
- 12. To ensure safe and secure environment for the students through anti-ragging cell, ICC and grievance redressal cell with 24x7 CCTV surveillance in each and every corner.**
- 13. To digitalize the library facilities for a better student support.**
- 14. To conserve the greenery within college campus through regular plantation programmes and maintenance of the persisting biodiversity parallel to overall development.**
- 15. To develop an eco-friendly and sustainable method for temperature maintenance of the buildings through roof top gardening.**
- 16. To generate alternate sources of energy through solar panels set throughout the roofs.**

#### Objectives:

- To foster innovation in higher education through the integration and application of AI technologies.
- To improve student learning experiences through AI-driven tools and methodologies.
- To increase access to quality education to create inclusive learning environments for diverse backgrounds.
- To create advanced research capabilities by harnessing AI for data analysis, pattern recognition, and predictive modelling.
- To commit to ongoing adaptation of AI strategies to keep pace with technological advancements and educational needs.

#### Contacts:

#### Outcomes:

- Enhanced student engagement tailored by AI-driven educational tools
- Improved learning outcomes through AI-supported teaching methodologies
- Equitable access to education reducing barriers to learning through inclusive AI technologies
- Innovative research advancements through AI-powered research methodologies
- Ethical and responsible AI use through adhering to ethical guidelines and principles

### Course Design

Lab Attire (3 hrs.)

PPE (Protective Equipment ) (3 hrs)

Emergency Response procedures (2 hrs)

Emergency response instructions poster (3hrs)

Incident Reporting (2 hrs)

Waste Disposal (3hrs)

Soldering Safety (3 hrs)

Desiccator in Chemistry Lab. (2 hr)

Desiccants (1.5hrs)

Light sensitive chemicals (1.5hrs)

Reactive metals like Na and K (3hrs)

Properties of some lab based chemicals (3 hrs)

After successful completion of the course,  
certificate will be provided to each student

### Objective

The Science classroom laboratory with its equipment, glassware, and chemicals has the potential for accidents. In order to avoid dangerous accidents, or to minimize their damage, precautions must be taken by every student to ensure the safety of everyone working in the laboratory.

So the main objectives of this course are:

- This course offered to learn safety rules for working with chemicals and participating in a safe manner when carrying out lab procedures.
- This helps the students to Handling Chemicals safely.
- Students Use chemicals only as directed and for their intended purpose.
- This course offered to the students to identify and understand the various functions of laboratory equipments.
- Students will learn which chemicals should be kept in Desiccators, which chemicals should be kept in dark and which chemical should be kept under kerosene and why?
- Students will learn which chemicals are toxic and which one should be careful while working in the lab.

#### Course Outcome

To minimize the risk of injury or illness to laboratory workers by ensuring that they have the training, information, support and equipment needed to work safely in the laboratory.

## Add On Course:

Title: Safety in Chemistry Laboratory and Preservation of Chemicals

Course Duration: 30 Hours

### Objectives:

The Science classroom laboratory with its equipment, glassware, and chemicals has the potential for accidents. In order to avoid dangerous accidents, or to minimize their damage, precautions must be taken by every student to ensure the safety of everyone working in the laboratory. Therefore, the main objectives of this course are:

- o • This course offered to learn safety rules for working with chemicals and participating in a safe manner when carrying out lab procedures.
- o • Students can complete the Safety and equipment quiz with teacher satisfaction.
- o • This helps the students to Handling Chemicals safely.
- o • Students Use chemicals only as directed and for their intended purpose.
- o • This course offered to the students to identify and understanding the various functions of laboratory equipments.
- o • Demonstrate proper laboratory techniques.

### Curriculum for this Add-on Course:

#### > Module 1 (6 hours):

- ✓ About appropriate and inappropriate lab attire - 1 hour
- ✓ Apron- Rubber or Plastic - 1 hour
- ✓ Lab Protective Equipment - 1 hour 30 minutes
- ✓ "Typical PPE" for the lab - 1 hour
- ✓ Specialized PPE - 1 hour 30 minutes

- ✓ Incident Report - 2 hour 30 minutes

> First Tutorial - 1 hour

> Module 3 (3 hours):

- ✓ Hazardous material - 1 hour
- ✓ Waste disposal - 30 minutes
- ✓ Specific waste disposal instructions - 1 hour
- ✓ Clean Lab Equipment - 30 minutes

> Second Tutorial - 1 hour

> Module 4 (5 hours):

- ✓ Soldering Safety (Prevention of burns and fires) - 1 hour
- ✓ Proper PPE ( Safety glasses, long pants and closed-toed shoes) - 1 hour
- ✓ Maintaining a hygienic work - 1 hours
- ✓ Use of Desicator in Chemistry Lab - 2 hours

> Third Tutorial - 1 hour

> Module 5 (2 hours):

- ✓ About Light sensitive chemicals - 1 hour
- ✓ Desiccants - 1 hour

> Module 6 (2 hours):

- ✓ Properties of reactive metals - 1 hour
- ✓ Properties of some lab based chemicals - 1 hour
