NSS UNIT-I, II & III

Sonamukhi College

About NSS Units of Sonamukhi College

The National Service Scheme is a noble Youth Activity of our country started in 1969 on the occasion of the birth centenary of Mahatma Gandhi. The main objective of NSS is 'Education through Community Service'. "Not me but you" is the motto of NSS which means every person should realize that not he alone or she alone is important but the society in which he or she lives is on the whole important. NSS activities are multipurpose as well as multidimensional in their nature. And in practice, these activities take an important part to the service of mankind and in execution of the process of formation of the future generation of the country through various constructive programmes. The phenomenal success of Science and Technology in his service has made man forget the long cherished values such as love, peace, co-operation and tolerance etc. Materialism and its comfort shifted the importance of life to mere acquisition of material health. Further Globalisation has thrown the values out of greater life.

West Bengal is one of the first few states where NSS has been introduced since its inception in the country in 1969. In the days to come, NSS activities will further be strengthened to take it to the optimum level by sincerity and commitment of all concerned. Similarly the NSS of Sonamukhi College has achieved many goals of youth empowerment. The NSS volunteers are involved in multi-dimensional activities like laying of college garden, tree plantation,

adoption of village, Swatch Bharat Abhiyan, health camp, awareness programmes etc. The students may be placed in projects of adult education, welfare of slum dwellers, training in civil defence, traffic control, adventure sports, work in hospitals, orphanages, destitute homes.

Our mission

- To inculcate principles, values and ideologies in the younger generation and make them aware of their commitment towards social and moral duties and initiate them into social community service.
- To inspire volunteers to take active participation in state wide or national NSS activities
- To motivate students for cultural programmes and take active participation in national competitions.
- To arrange awareness programmes related to health, hygiene, road safety, cleanliness, vector borne diseases, environmental changes, prevention of dengue and AIDS among common people.

Units, Programme officers and intake capacity

In recognition of our real attachment with the society the university has sanctioned three NSS units. Prof. Ramprasad Kanrar, Prof. Subhasree Majumdar and Prof. Anupam Mandal are in charge of UNIT-I, II and III respectively. With an intake of 150 students, every year the Programme Officers are actively engaged in different programmes.

Adopted villages

Each unit of Sonamukhi College NSS has adopted a nearby village and is actively involved in social activities including members of the village.

Dengue prevention activity at campus

Date-10/08/2020

Total number of participants-20

Dengue is a mosquito-borne viral infection, found in tropical and sub-tropical climates worldwide, mostly in urban and semi-urban areas.

The virus responsible for causing dengue is called dengue virus (DENV). There are four DENV serotypes, meaning that it is possible to be infected four times.

While many DENV infections produce only mild illness, DENV can cause an acute flu-like illness. Occasionally this develops into a potentially lethal complication, called severe dengue.

Severe dengue is a leading cause of serious illness and death in some Asian and Latin American countries. It requires management by medical professionals.

There is no specific treatment for dengue/severe dengue. Early detection of disease progression associated with severe dengue, and access to proper medical care lowers fatality rates of severe dengue to below 1%.

The global incidence of dengue has grown dramatically in recent decades. About half of the world's population is now at risk. There are an estimated 100-400 million infections each year.

Dengue prevention and control depends on effective vector control measures. Sustained community involvement can improve vector control efforts substantially.

On 10th August, 2021, NSS volunteers of Sonamukhi College gathered at college campus maintaining the pandemic guidelines. The students came up

with placards and handwritten bills for the awareness programme. The places inside college campus that were transformed into bushy grounds, that could serve as breeding grounds of mosquitoes were properly cleaned to combat the spread of the same. In some cases the handwritten bills were pasted on street side walls to spread awareness on this disease. After the programme was over the volunteers were provided with Tiffin packets and they left for home.

Celebration of International women's day

Date-8th March, 2021

This year's International Women's Day is like no other. As countries and communities start to slowly recover from a devastating pandemic, we have the chance to finally end the exclusion and marginalization of women and girls. But to do that, we need immediate action. Women *must* have the opportunity to play a *full* role in shaping the pivotal decisions being made right now as countries respond to and recover from the COVID-19 pandemic – *choices* that will affect the wellbeing of people and the planet for *generations* to come.

To do this, we must break down the deep-seated historic, cultural, and socio-economic barriers that prevent women from taking their seat at the decision-making table to make sure that resources and power are more equitably distributed. For instance, across the world, women remain concentrated in the lowest paid jobs, many in extremely vulnerable forms of employment. The United Nations Development Programme (UNDP) is working with countries across the globe to address these inequalities. It would also contribute to the *economic security* and *independence* that is necessary for women to engage more deeply in the decisions that could change their future.

Despite the barriers, women, especially young women, are at the forefront of diverse and inclusive movements for social change -- online and in the streets. That includes their leading role in taking a stand against climate change, fighting for a green economy and pushing for women's rights. And we know

that more inclusive leadership and representation leads to stronger democracies, better governance, and more peaceful societies. To *build forward better* from the COVID-19 crisis, and to get the Global Goals firmly back on track, we cannot simply return to the world we had before. That means *shattering* the barriers that hold women and girls back. This year's International Women's Day is a rallying cry for Generation Equality. It is time to finally fully harness the power of women's leadership to realise a more equal, more inclusive and more sustainable future.

NSS volunteers of Sonamukhi College took the courage to let everyone know the importance of women coming forward for the development of the country. The volunteers prepared handwritten posters and through still pictures and videos spread the message on this day. A total of 15 volunteers took part in online mode.

Tree plantation programme on world environment day

Date- 5th June, 2021

World Environment Day (WED) is celebrated annually on 5 June and is the United Nations' principal vehicle for encouraging awareness and action for the protection of the environment. First held in 1974, it has been a platform for raising awareness on environmental issues such as marine pollution, human overpopulation, global warming, sustainable consumption and wildlife crime. World Environment Day is a global platform for public outreach, with participation from over 143 countries annually. Each year, the program has provided a theme and forum for businesses, non government organizations, communities, governments and celebrities to advocate environmental causes. On 05/06/2021 the NSS Cell of Sonamukhi College organized a Tree Plantation program keeping in mind about the importance of environmental protection. On that day limited number of volunteers gathered on the college campus and planted saplings all around the college campus. When the program ended, the packets of snacks were distributed. Total 18 volunteers took part in the programme maintaining social distancing and pandemic rules.

Celebration of international Yoga Day

Date- 21st June, 2021

The **International Day of Yoga** has been celebrated annually on 21 June since 2015, following its inception in the United Nations General Assembly in 2014. Yoga is a physical, mental and spiritual practice which originated in India. The Indian Prime Minister in his UN address in 2014, had suggested the date of 21 June, as it is the longest day of the year in the Northern Hemisphere and shares a special significance in many parts of the world.

Following this initial proposal, the UN adopted the draft resolution, entitled "Day of Yoga", on 2014. The consultations were convened by the delegation of India. In 2015 Reserve Bank of India issued a 10 rupees commemorative coin to mark the International Day of Yoga. In April 2017, UN Postal Administration (UNPA) issued 10 stamps on Asanas on a single sheet to mark International Day of Yoga.

By understanding the importance of this day, NSS volunteers of the college on 21st June, 2021, performed different asanas in their home and captured still pictures. Many of the important postures like padmasana, matsasana, bhujanghasana and many more were performed beautifully by the students. A total of 20 volunteers took part in the programme and made it successful.
